

Relay Style QNX1

AC Lamp-Proving Relay with Internal Rectifier

An ac lamp-proving relay incorporating an internal rectifier. No time delay is provided to cover operating time of other relays

No BR specification exists for this relay.

The available range is listed in the table below. For additional information on Q style relays, refer to Datasheet 3A *Style Q Plug-in Relays*.

Part Number	Coil Resistance (Ω)	Contacts	Volt Drop	Max Full Operating Current (A)	Min Release Current (A)	Plugboard	
						Part Number	Code Holes
M25044	0.4	4F2B		0.255	0.075	M25478	BCHKX

Note: The specified characteristics apply with a coil temperature of 20°C.
