

LED TRI, DSI and SRI

4th March 2010 TTTBSIG015 Issue 2.0

This bulletin has been re-issued with Siemens branding and a new version number. The date in the title bar is the original date the bulletin was published. There is no major change in content.

1 Applicability

All new LED Theatre Route Indicators, Dynamic Speed Indicators and Stencil Route Indicators

2 Information

The white LED that we have been using in

- LED Theatre Route Indicators
- LED Stencil Route Indicators
- LED Dynamic Speed Indicators

Has been obsoleted and replaced with a new, improved variant.

The replacement LED has the same chromaticity and slightly increased brightness. It is from the same manufacturer and same process and is effectively a new variant on the current device.

We will use the new LED in the above modules as soon as current stocks are used.

3 What do I need to do?

Nothing!

We will automatically supply the new LEDs and there are no changes to part numbers.

Please contact us if you wish to discuss any type approval related issues.
